WHIPPLE FREE LIBRARY

REPORT OF THE TRUSTEES OF THE WHIPPLE FREE LIBRARY, YEAR ENDING JAN. 31, 1921.

The trustees take pleasure in reporting that for the year just ended, the library has maintained unbroken its record of service to the people of the town.

Though the factor of uncertainty has existed as to the continuance of our use of the present library room, our books are still housed in their delightful and commodious quarters, and without any rental expense to the town. This fact is due to the generosity of Mr. Fred D. Gilman who gave the use of the room during his ownership of the building; and to that of Mr. Clarence H. Dodge, who, upon purchasing the building in July, granted the trustees the free use of the place until town meeting 1921, future arrangements to be made at that time. To both of these gentlemen, the trustees desire to express the thanks of themselves and the townspeople.

The problem of the satisfactory heating of the building was met by the installation, at small expense, of one of the box stoves formerly used at the town hall. This, while not as ornamental as might be desired, has served the main purpose admirably.

During the year, in addition to the usual circulation of books, the high school has been given the loan of a limited reference library for use in connection with the school courses of study.

In addition to the expense of heating, the trustees, not knowing who might purchase the building, faced for most of the year the possibility of having to pay rent for the library room, and deemed it wise to conserve cash in the treasury to meet such an emergency. Therefore the purchase of new books for somewhat delayed, and

the amount of money used for this purpose was slightly curtailed.

For the information of library users, a list of newly acquired books is appended to this report. In deference to the wishes of the great majority of our readers, most of the books are fiction. A notable exception is the deluxe nine-volume set of the splendid nature series published by Doubleday, Page and Company, which the trustees were able to purchase at about half price, a rare bargain. Books have been donated to the library as follows: Mr. Henry H. Brooks (4), Mr. C. H. Coleman (1), Friends of Irish Freedom (1), and Young's Hotel (box of used books).

Thanks are due to Miss Elsie G. Warren, librarian, and to Mrs. Emma Bennett, caretaker, for their usual faithful and painstaking work; also to all the above-mentioned donors of books.

ALICE L. WALDO,
CHARLES F. MARDEN,

Report of Health Officer

I regret that it is necessary for me to report so many cases of contagious disease in this town for the past year, also that we had one death which was the result of measles.

The number of cases reported to me were 119, as follows: scarlet fever, 4; measles, 108; mumps, 2; and whooping cough, 5.

Owing to the fact that disinfectants have been three to five times more expensive for the past year than ever before, it has made it a very expensive year for this department.

Respectfully submitted,
ARTHUR W. HOLT,
Health Officer.

REPORT OF SCHOOL BOARD

To the Selectmen of New Boston and the Inhabitants of the School District:

The school board of the District of New Boston respectfully submit the following report of the fiscal year ending August 31, 1920.

In submitting this report for your consideration we wish to say that we have been as conservative in all our estimates and requests as is consistent with the welfare of our schools for the ensuing year, and we wish also that you keep in mind the fact that while we hear much said about the decrease in the "high cost of living" personally we have not experienced any material change.

At the same time we hope that the coming year will see a change for the better from a financial point of view.

During the past summer we remodeled and repaired No. 16 house, as was suggested at the annual meeting in March, 1920. This work consisted of changing the windows so all light comes from the left hand and back of the room, as is required by the state. Also putting in some new blackboards and installing a Kaustine toilet. We also shingled the house and wood shed.

We are placing an article in our warrant for your consideration in regard to House No. 8 (village).

The sanitary conditions at this house are at best very bad, if not a menace to our boys and girls attending this school, and it is very possible that if something is not done the state may declare it to be a public nuisance.

Your school board have been considering this matter and have a plan and estimate for cost of carrying out the same, which will be submitted to you at the next annual meeting.

Our high school under the able management of Principal Payson Reed and Miss Inez Robinson as assistant

has been a success and a large class will graduate from it next June.

Superintendent Winslow should be commended for the efficient manner in which he has performed his duty, both in the High and Elementary schools.

We wish also to thank the people of the district for their cooperation and support during the past year.

REPORT OF SUPERINTENDENT OF SCHOOLS

Goffstown, N. H., Feb. 15, 1921.

To the School Board and Citizens of New Boston:

I have the honor to present my fourth annual report upon the schools of your town, it being the fifth since New Boston has been under supervision. This report will not deal with the individual schools in detail but as a whole.

The High School continues on the approved list and is doing good work. The spirit and morale are excellent. A good sized class will graduate in June and it is hoped that as many will enter next fall. The cost of maintenance has advanced materially but in no proportion to the mounting costs of living.

In spite of a bad epidemic and a winter of unusual hardship our schools maintained a good per cent of attendance during the past year, in fact, unsurpassed in the last five years. The number of tardy marks has materially decreased. These are signs of an enlightened public opinion and support of the schools. "Good Schools are Everybody's Business" is the motto of the State Board of Education, and only as everybody becomes interested in a constructive way can permanent improvement be brought about.

The year in progress has been unusually difficult, owing to the teacher situation. One school has had four teachers since September and another three. This continued changing cannot but be detrimental to the schools no matter how efficient the teaching. In January of this year, United States Commissioner of Education, Dr. P. P. Claxton, called a Citizens' Conference on Education for the New England States, at Boston. The Committee on Resolutions reported in part as follows: "Salaries should everywhere be sufficiently generous to attract and hold the highest type of teachers. In isolated

rural communities and in places of peculiar hardships or difficulties, where educational opportunities and social betterment are most needed, relatively larger salaries should be paid. Rural communities should provide comfortable, congenial, home-like living conditions by opening the best homes, establishing teacherages, providing transportation or by other effective methods. Social recognition should be granted these teachers, and they on their part should participate freely and helpfully in the life of the community." In New Boston it is not a question of salary but of living. It is either a case of close schools and transport pupils or teachers, or make it easier for them to go to and from town. The outlook appears to be brighter but no decrease in the cost is to be looked for.

The State Board of Education has recommended that school districts adopt a progressive plan for school-house betterment. This your school board has already done, with a result that the new law has required a less outlay from New Boston for repairs than in many of the towns during a period of advancing costs. Number 16 school was remodeled last summer and the plan this year is to improve the conditions at the village. New seats and desks are very much needed in the Grammar and Primary rooms but the market conditions on these products seem to make it advisable to wait for better purchasing conditions. The toilets, however, are very unsatisfactory and unsanitary and should be removed. Flush water toilets seem to be out of the question, owing to the fact that the building cannot be furnace heated. Chemical toilets have passed the experimental stage and proved to be satisfactory for school purposes. Moreover, the cost of installing such toilets will in all probability be as little next summer as at any time. Plans and specifications are in the hands of the school board and it is hoped that you will support them in this undertaking.

As this report goes to print the legislature is considering several amendments to the school law which may materially effect the budget of expenditures which we have carefully worked out and which the school board have printed. The total amount of money necessary cannot be materially changed but the method of raising and apportioning it between the district and the state probably will be modified.

In 1920, "No New Hampshire father could feed, clothe, shelter or care for his child in sickness or in health without a cost increased by 75 per cent over the expense necessary two or three years ago." (See Report of Commissioner of Education, 1920.) In New Boston such a father has schooled his child, no matter whether in elementary or high school, at an increase of 11 per cent. As proof of this comparative figures for 1919, the last year under the old law and for 1920, the first year under the new law, accompany this report.

In closing I wish to pay tribute to Mrs. Annie B. Reed whose resignation from the school board was universally regretted. She was always willing and anxious to devote time and effort to the welfare of the schools, and was never too busy to give anyone a hearing, or to listen to suggestions to the end that the schools might be made better.

Respectfully submitted,
HOWARD L. WINSLOW,
Superintendent.
